**Note:** I know my CV is long, but I did my best to report items which I believe could benefit the future generation when what a person can achieve during his academic work, because I do not mention my life before I joined the academia because it has no relation between academic work and work at Ministry of Health. However, in my biography book (A Voyage from Tigris to Detroit) shows **in Part One** all the important events in my life Pre-Expatriate from Iraq to US (1941-1996) which is not reported in my CV, while in Part Two of my biography book I wrote the event Post-Expatriate from Iraq to USA (1997-2022), which can be obtained from Amazon.com/library book
